

Vista

Vista – A complete program suite to manage your taxi business from order entry and dispatch to cashiering, card processing, accounting and vehicle maintenance. All integrated and set up to help you make more money in your business. You deserve the best returns from your investment – get Vista!

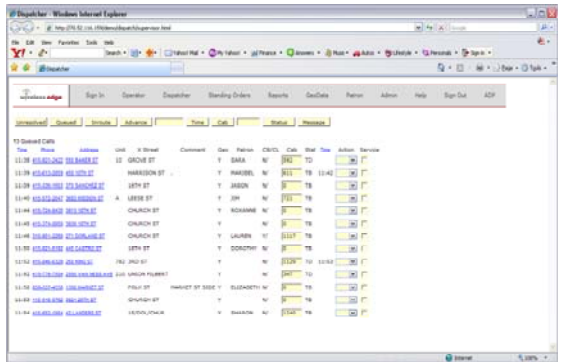

Vista – your own in-house system or a Wireless Edge hosted system. Your choice – whichever works best for your business. A hosted system minimizes your up-front costs – you need PC workstations, router and hi-speed Internet connection. **Vista** is available on a module by module basis – you can start with one business operation and add others as desired.
